

Seminar on “Man as an information processor: How we receive information from environment and process it” on the occasion of National Librarian’s Day

JAIN (Deemed-to-be University) organised seminar on the topic “**Man as an information processor: How we receive information from environment and process it**” on the occasion of “**National Librarian’s Day**” on 26- Aug-2022.

The National Librarian Day is celebrated to mark the Birth Anniversary of famous librarian and mathematician **Dr. S.R. Ranganathan** every year. He is considered as the “Father of Library Science” in India.

The JAIN (Deemed-to-be University) organised a seminar on “Man as an information processor: How we receive information from environment and process it”, on the “National Librarian’s Day” at the Knowledge Campus. **Dr. M.P Satija, DLIS, Gurunanak Dev University, Amritsar** was invited as the resource person for the seminar. He shared his thoughts about the processing of gathered information and also spoke about the uses of genetic information, qualities of genetic information, cognitive functions of the brain and how we have transitioned of information society.

Prof. K. R Sridhara Murthi, Director (Academics and Planning) was the “Chief Guest”, he advised the students about the advantages of the library and books. The welcome speech was given by Dr. Meeramani.N, Librarian, JAIN (Deemed-to-be University). The event concluded with the vote of thanks by Mr. Manjunath, Librarian, Faculty of Engineering and Technology JAIN (Deemed-to-be) University.
